SafeMoney changes the payment practice by ensuring to the point of sale accurate, efficient, safe and error-free cash management, drastically **reducing the risk of theft and robberies**, speeding up cash point

EASY

 L 36.5cm x D 38cm x H 55.8cm

The measurements refer only to the metal case, useful for installation operations. For a correct installation of the product we recommend following the "Installation guide".

SafeMoney Easy replaces Compact model.

Its design has been radically changed. The front opening is no longer upwards but on the side, so that Easy model is partially fittable.

On the top is still the printer holder and **a new spout for coins** makes the coins insertion even more so easy and fast. Easy has the cash box for the coins stock.

CONNECTION:

USB

AFFLUENCE:

LOW

	Integrated space for fiscal printer
	Compact Design
	Front door for maintenance with security lock
	Cashbox for coin storage
	Design "easy to clean"
	Increase the hygiene of the point of sale
	Feedback lighting
	Customizable front panel
	Partially integrable
	Fixing plate - optional

*an UPS is recommended

procedure by avoiding queues in the checkout and improving the user experience both of the operator at the checkout and of the end user. **SafeMoney** allows **immediate insertion of all coins** and

SMART

 L 36.5cm x D 38cm x H 55.8cm
n

The measurements refer only to the metal case, useful for installation operations. For a correct installation of the product we recommend following the "Installation guide".

SafeMoney Smart has identical design as Easy model and **also has a monitor integrated** into the front door. Besides the Smart has also an integrated **uninterruptible power** supply that is not available at Easy model.

CONNECTION:
ETHERNET

AFFLUENCE: 
LOW - MEDIUM

	Integrated space for fiscal printer
	Compact Design
	Front door for maintenance with security lock
	Cashbox for coin storage
	Design "easy to clean"
	Increase the hygiene of the point of sale
	Feedback lighting
	Customizable front panel
	Partially integrable
	Fixing plate - optional
	Internal UPS to guarantee transaction closure
	Web service integrato

has **immediate response times** when disbursing change; it allows mixed payments, **through EFTPOS and cash** and can be conveniently used for deposits, withdrawals and exchanges. The front panel can be pleasantly

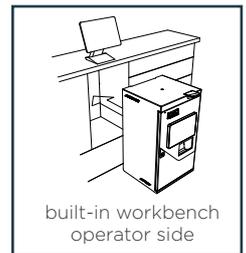

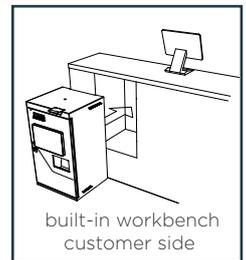

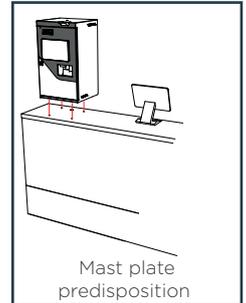

PRO

L 37cm x D 33.7cm x H 63.8 cm
Measurements are in cm ± 1mm

The measurements refer only to the metal case, useful for installation operations. For a correct installation of the product we recommend following the "Installation guide".

SafeMoney Pro can be easily built into any workbench, thanks to its compact size and simple design, without making any changes.

Compared to the advance and the extreme, it features an integrated design nozzle, reducing the overall dimensions of the upper horn.

CONNECTIONS:
ETHERNET

AFFLUENCE:
MEDIUM
